

Santhosh Nagaraj

Full Stack Developer

Tamil Nadu, India | +91 8525934244 | santhoshnagaraj.info@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Full Stack Developer with hands-on experience building web applications using React.js, Next.js, Node.js, Spring Boot, and MongoDB. Skilled in developing responsive interfaces, authentication workflows, REST APIs, reusable components, and performance-focused features. Comfortable contributing across design, coding, testing, debugging, deployment, and collaborative development workflows.

Technical Skills

Frontend: React.js, Next.js 15, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Java, Spring Boot, REST APIs, Microservices, OAuth 2.0, Python, AWS

Database & Tools: MongoDB, MySQL, PostgreSQL, Redis, Kafka, Git, GitHub, Docker, Jenkins, CI/CD, Unix

Other: Redux Toolkit, React Query, Context API, SSR, SSG, ISR, Code Splitting, Lazy Loading, Agile/Scrum, Programming, Analytical Reasoning

Experience

Cobeno Info Tech | *Frontend Developer Intern (Project-Based)* Mar 2026 - Mar 2026

- Engineered a responsive Admin Dashboard UI with Next.js, TypeScript, and Tailwind CSS, improving usability and load performance for internal teams.
- Resolved UI implementation challenges across the admin login interface, page navigation, and loading screens, delivering reusable components adopted throughout the panel.
- Collaborated with the lead developer to clarify application requirements and leveraged Git and GitHub workflows to implement, track, and manage changes for the TOT_Hygiene Admin Panel.

Projects

Hobby App - Full-Stack Social Media Platform 2026

- Technologies: ReactJS, SpringBoot, MongoDB, JWT, WebSocket, Bootstrap, REST API, React Query
- Developed a social media platform with Java and ReactJS, supporting authentication, real-time messaging, and notifications. Implemented JWT authentication and WebSocket-based communication.
- Built responsive interfaces and integrated REST APIs across frontend and backend services. Designed MongoDB schemas to support scalable user and messaging workflows.

ClipGrabber Pro - Full-Stack Automation Tool 2025

- Technologies: React.js, Spring Boot 4, MongoDB, JWT, Tailwind CSS, REST API, Context API
- Built a media automation platform that reduces manual download effort by approximately 75%, implementing application logic for media processing and download management.
- Developed reusable React components and responsive user interfaces using Tailwind CSS.
- Integrated REST APIs for media processing and download management. Improved application performance through lazy loading and efficient client-side rendering.

Certificates

- MongoDB: MongoDB University | 2024
- Fundamentals of Docker and Kubernetes: SCALER | Mar 2026

Education

B.Sc., Computer Science 2022 - 2025

G.T.N Arts College, Madurai Kamaraj University

Madurai
